I am reading from a chapter, and the author used `size_t` ptr. What's the purpose of using `*ptr` in this way? `size_t *ptr = &array[0];` while(ptr Statistical methods for testing in single-case experimental designs. Two approaches to the statistical testing of single-case experimental designs are described. One approach is based on the idea of developing statistical summaries of the data collected and the second approach is based on the use of parametric and nonparametric methods. The advantages and disadvantages of both approaches are discussed. Additionally, several statistical methods for the analysis of data collected in single-
